

RANGER BRANCH
Megalos Odigos/Ranger (Age group:14-17)
Naftodigos/Sea Ranger

The goal of the Greek Rangers is to adjust to the adults' world and to actively take part, coping with the needs and problems of modern society. The main axis of their programmes is "to serve"; participation in the community development and service to the community is being realized through activities that offer valuable experiences to youth of that age. The community development camps during summer integrate the programme of the whole guiding year.
